Our mission

The AJA association serves a network of associations (including accommodation centres, holiday and outdoor activity centres, youth hostels or holiday villages) situated throughout Alsace and bound by a Quality Charter with the emphasis firmly on comfort, safety and activities. Its goal is to coordinate the multitude of services and skills offered by this network in areas such as hospitality, accommodation, restaurant services and organised activities in order to meet the needs of anyone keen to use their leisure time for self-fulfilment and to meet others (young people, families, sports clubs, classes, associations, groups of friends, works committee, etc).

As the leading travel agent for groups and organisations, the AJA offers sustainable tourism solutions based on strong human, social and ethical values. It considers free time as a valuable means of promoting social contact, ecology and community-mindedness, but also as an educational adventure offering a chance to discover Alsace's fascinating natural, human or cultural environments. In doing so, the AJA encourages the development of community and group values while participating in enhancing the natural, economic, social and cultural standing of Alsace, working in partnership with the Alsace Region.

La Vie en Vert is a reception centre with 110 beds, approved by Jeunesse et Sports and the Ministry of Education, divided between two houses in the heart of the "Parc naturel régional des Vosges du Nord". La Vie en Vert means a lifestyle with a firmly ecological orientation, using selective waste sorting, compost grinder, thermal weed control, bacterial kitchen fat breakdown, biodegradable washing up liquid, etc. La Vie en Vert means facilities to promote nature and education: nest-boxes for bats and birds, natural meadowland, a pond with a variety of biotopes, green compost, hedgehog refuges, insect gardens, an arboretum, gardens of flavours and scents. La Vie en Vert means a team of professionals, including a co-ordinator with a BEATEP diploma in "environment education", and a network, shared with the Piveris association (environment education) and the French Department of Forest, at your disposal. La Vie en Vert is an ecological lifestyle that we want to share with you by inviting you to the Foyer Saint-Jean hostel, where children can be accommodated in perfect security.

This is without a doubt one of the best ways to combine getting away from it all with sports, culture and discovering Alsace... The site's central location makes it possible to visit any part of the Region you wish. Strasbourg and the Sélestat Humanist Library are both close by. A colourful, picturesque series of Alsatian villages are strung out along the Road of Vineyards in the Piémont plain. Admire half-timbered houses, vineyard and orchards, storks and winstubs, etc. Not only the small villages, but also Mulhouse, Colmar, Saverne and of course Strasbourg, have interesting connections with culture, heritage, Europe and citizenship. In any case, "all the towns in Alsace are in the country" and it is always possible to make an escape into the heart of Nature or simply to practise your favourite sport. It should be noted that Châtenois, where our centre is located, is in the heart of the region, giving quick and easy access to the towns.
